So speech therapists are speaking out against Governor Snyder's attempt to deregulate the field.

Don't be surprised, because quite often the proponents for regulation and licensing are the very members of the industry that is being regulated. Why? Because they are already entrenched and can take advantage of such means as obstacles to competitors entering the field.

These types of shady businessmen are well depicted in Ayn Rand's novel *Atlas Shrugged*. She even coined a term for this corrupt relationship between business and government. She called it "the aristocracy of pull."
